

Squeaky Beach graffiti

Bronzie has been
to Squeaky Beach before
and carved his name through paint
into the dunny door

Bronzie woz ere 01, 02, 03, 04
He recorded the years
but there's not much going on
between his ears.

This is his idea of fame
upon the stage of life
cut into Eucalyptus
with a multi-bladed army knife.

Bronzie shows he knows exactly where he is
and can count to four . . .
this is Bronzie's contribution to the world of art
but his calligraphy's piss poor

even the Lucky Country
spawns some clowns
whose sense of values
are upside down
